

# Literacy and Intervention

PRODUCTS BY 

Educators nationwide are implementing the Response To Intervention (RTI) model to identify and work with struggling learners in any setting. Under this model, districts operate under the principles that:

- Early Intervention is critical to the prevention of reading failure.
- A problem-solving approach utilizing performance data informs better decisions.
- A multi-tier delivery model unifies district resources to support learning.

\*Approximate Percentages

Research-based materials form a cornerstone of RTI. School Specialty Literacy and Intervention, a leader in intervention for over 50 years, offers an array of literacy programs that support students across all tiers. Tier models may vary from district to district. To learn more about these programs and determine how they best align with your tier structure, visit us at [eps.schoolspecialty.com](http://eps.schoolspecialty.com) or contact your local sales consultant.

## READING AND MATH INTERVENTION
