HANDPRINTS

Handprints is a collection of storybooks and workbooks designed to help young children develop early literacy skills. The storybooks give children practice reading connected text and the workbooks prepare them for unlocking unfamiliar words that they will encounter when reading the stories. Stories reflect the real world students live in and give delightful renditions of families and friends.

These Storybook Sample Pages show actual-size storybook pages illustrating the font size and text placement in 8 different titles across a range of levels. Each page is labeled with the Title, Set Number, Reading Recovery level and Guided Reading level (ex. King's Job, Set C2, 10/F).
