MEETING STANDARDS THROUGH S.P.I.R.E.*

The standards place equal emphasis on the sophistication of what students read and the skill with which they read. S.P.I.R.E. builds foundational reading skills and supports struggling students as they ascend the “staircase of text complexity.”

| Phonological Awareness | Rhino providing, categorization, and matching |
| Phonics | Explicit, coordinated instruction in decoding and encoding |
| Spelling | Spelling and phonics are taught simultaneously |
| Fluency | Fluency drills are provided for every concept |
| Comprehension | Literal and inferential thinking is modeled and practiced |
| Vocabulary | Phonetically controlled vocabulary for every lesson |
| Writing | Instruction in capitalization, punctuation, and certain parts of speech |

S.P.I.R.E. lessons are built on the principles of the Science of Reading, supported by decades of rigorous research into how children learn to read. Numerous studies of S.P.I.R.E. users have shown real progress year over year in all aspects of reading, from fluency to comprehension.
Students learn in print or online.

Traditional print-style

Students and teachers work with printed activities and physical manipulatives for a rich multisensory classroom experience.

Online

iSPIRE® powered by exploros®
Students work primarily with online activities and manipulatives, powered by Exploros™, ending the need for teacher-time spent distributing and collecting materials. Teachers also work online, enabling real-time progress monitoring, digital assessment and reporting. Available iSPIRE workbooks add easy student access to printed instructional resources and lesson reinforcement.

Teachers can add digital flexibility.

Print 4th Edition plus digital add-ons

S.P.I.R.E. Digital Teacher Companion and Digital Student STAR
Students and teachers work with the print materials and manipulatives of SPIRE. With the Digital Teacher Companion, all teacher materials including blackline masters and demonstration tools are a click away, saving valuable prep time. When Digital Student STAR licenses are purchased for each student, teachers gain the power to digitally Share, Track, Assess, and Report. Digital components powered by Exploros.
The SPIRE 10-Step Lesson

Step 1: Phonogram Cards
5 minutes

Students review all Phonogram Cards with the name of the letter and its sound.

- **Introductory Lesson:** New concepts are introduced using a Key Word Sheet.
- **Reinforcing Lesson:** Decodable and sight words are introduced or reviewed with Word Cards.

Step 2: Phonological Awareness
5 minutes

A wide variety of activities, many oral in nature, are designed to develop students' ability to hold sounds in their minds.

Students work on Rhyme Providing/Categorization, Sound Providing, Categorization/Identification, Blending, and Segmentation: Counting/Deletion/Substitution. Some activities utilize the Phoneme Segmentation Sheet.

Panel A: Key Word Sheet, Level 1

Panel B: Phoneme Segmentation Chart

Panel C: Phoneme Segmentation

**Phoneme Segmentation**

White circles represent consonant sounds and green circles represent vowel sounds. Students sound out words and bring down circles on their Phoneme Segmentation Sheet to stand for each sound they hear. Then they repeat the sounds and blend them to say the whole word. As students progress, they use the rectangles to represent syllable division.
**Step 3**  
**WORD BUILDING**  
5 minutes

Students build and manipulate words with letter tiles. As students advance in the levels, Step 3 utilizes the Phoneme-Grapheme activity.

S.P.I.R.E. utilizes a color-coding system across many components—such as these letter sets—to assist students in differentiating between different types of phonograms.

When students move on to writing words, they work with the Phoneme-Grapheme activity and Sound Circles to change sounds into letters to form words.

**Step 4**  
**DECODING AND SENTENCE READING**  
10 minutes

**Introductory Lesson:** Students work on a concept word list and are taught to underline, link, and box letters or letter combinations, or divide words.

**Reinforcing Lesson:** Students work on and read a list of words and ten sentences. Vocabulary and comprehension are developed.

Step 5: PREREADING

5 minutes

Introductory Lesson: The teacher leads students in a phoneme-grapheme analysis of one word containing the new concept. Reinforcing Lesson: The teacher leads students in a phoneme-grapheme analysis of a word from the story in their Reader. Instruction is then provided for introducing the story, building background, activating prior knowledge, relating events in the story to students’ lives, and applying events in the story to real life.

Step 6: READING & READING COMPREHENSION

15 minutes

Introductory Lesson: Students utilize a Word Find Sheet to identify and read new concept words. Word Find Sheets utilize a variety of fonts to expand students’ familiarity with print. Students read and circle new concept words, then read words aloud.

Reinforcing Lesson: Students read fiction and nonfiction selections, applying the newly introduced concept and reviewing previously learned concepts. During reading, students predict outcomes, identify cause and effect, compare and contrast, draw conclusions, or identify main ideas and details. Then the teacher and students complete a comprehension activity with a graphic organizer.

Students interact with a variety of reading selections, including nonfiction, fiction, poetry, biographies, myth, and fables.

A skill-specific graphic organizer has been tailored for the passage. Suggested headings and answers are provided in the Teacher’s Materials.
Sentences targeting new concepts are dictated while dashes are made on the board for each word. Students repeat the sentence as the teacher points to each dash, then they repeat the sentence again and put dashes on their paper. Then they write the sentence, putting a word on each dash. Proofreading, corrections, and read-alouds are incorporated.

*Dictation paper is used in both S.P.I.R.E. and iSPIRE for Steps 7, 9, & 10.
Independent Work

All text is decodable and concepts are reinforced through activities, reading Illustrated Decodable Readers, or writing sentences using new concepts. Activities provide independent decoding, fluency, vocabulary, and comprehension practice for the skills and stories from the passage. Guidelines for these pages are included in the Teaching Materials.

Illustrated Decodable Readers

A library of 120 Illustrated Decodable Readers build fluency and automaticity as students learn about content-area topics from science, social studies, and literature. A variety of genres include fiction, nonfiction, biographies, fables, myths, poetry, science experiments, and much more! Readers are a great enhancement to classroom libraries and provide teachers with a convenient take-home resource. Titles include both fiction and nonfiction selections and are engagingly illustrated.

HOW CAN DECODABLE BOOKS HELP EARLY READERS AND STRUGGLING READERS?

Reading is not a skill that comes naturally; it must be learned. Some children pick it up with less support than others, but all children benefit from instruction in phonics: that is, instruction in the sounds that letters represent and how these letters are combined to make words. Those who struggle with reading especially need to spend dedicated time developing their phonics skills. Reading decodable books can benefit students at all ability levels by enabling them to:

- Read independently after learning just a few letters and their sounds
- “Sound out” unfamiliar words, which makes students’ reading more accurate and discourages bad habits, such as skipping over unknown words or guessing what the words say, based on the first few letters
- Apply the phonics skills they’ve learned in the context of a story or nonfiction text
- Experience success and develop fluency and confidence in their reading abilities
Mastery of Concepts

Students begin with basic concepts and are assessed at the end of each level. As their reading skills progress, they are introduced to increasingly difficult concepts across content areas.

Their tomb was to be discovered and explored long before this

Phonological Awareness and Phonics for Reading Readiness and Remediation

S.P.I.R.E. Pre-Level 1
Sound Sensible® provides hands-on instruction in phonological awareness, alphabet knowledge, understanding letter-sound relationships, and handwriting for beginning or struggling readers, including those students not yet ready to start Level 1 of S.P.I.R.E.

Each letter or concept is taught through an introductory lesson, a reinforcement lesson that reviews all previous concepts, and another optional reinforcement lesson for those students who are still struggling with the concept.

BEGINNING READERS
Instruction builds the foundational skills of reading, leading to reading success.

STRUGGLING READERS
Orton-Gillingham-based instruction prepares students for Level 1 of S.P.I.R.E.®

LESSON STEPS
1. Listening focuses students’ attention on sounds in words and develops listening skills, background knowledge, and understanding of print concepts.
2. Rhyming develops students’ ability to identify and manipulate rhyme through rhyme identification, categorization, and matching.
3. Segmentation develops awareness of the 1-to-1 correspondence between spoken and written words. Segmentation and deletion activities progress from sentences, to compound words, to syllables, to phonemes.
5. Dictation develops students’ ability to connect a phoneme to its symbol in written form.

The Complete Kit for Hands-On, Multisensory Instruction

KIT INCLUDES:
- Teacher’s Guide with Blackline Masters
- Traffic Light Handwriting Chart
- Instructional Cards
- Sound and Rhyme Mats, Game Cards, and Manipulatives, and Small Mirror

FOCUS ON PHONOLOGICAL AWARENESS
Rhyming activities and systematic segmentation instruction develop phonological awareness, a central strand within Sounds Sensible®.

FOCUS ON LETTER FORMATION
As students learn each letter and its sound, they also learn and practice how to form the letter.

FOCUS ON PHONICS
Sounds Sensible provides explicit phonics instruction through repeated practice, games, and multisensory activities.

ASSESSMENT
Sounds Sensible® provides opportunity for ongoing assessment through classroom observation and lesson dictation.

Concept Assessments review student identification of the most recently taught letters and their sounds, and student ability to produce their written forms.

Cumulative Assessments are designed to serve a summative function. These assessments not only gauge student knowledge of all letters and sounds previously taught, they also measure student awareness of rhyming sounds – a key component of phonological awareness.

PRACTICE
All materials needed for the program are included in the Sounds Sensible kit. Add optional consumable student workbooks to:
- Organize student work
- Promote ease of use
- Reduce instructor preparation time
